Engineering Energy-Transfer Pathways in Perovskite Nanomaterials

Prof.
Jean-Charles Ribierre

Biography :

Dr. Jean Charles Ribierre is Reader in the School of Physics and Astronomy at the University of St Andrews in the UK. He received his PhD degree in 2002 from the University of Strasbourg in France. After postdoctoral experiences in RIKEN (Japan) and the University of St Andrews, he was appointed assistant professor (2010-2013) in the department of Physics at Ewha Womans University in South Korea and then associate professor at Kyushu University (2013-2019) in the OPERA Research Centre of Pr. Chihaya Adachi in Japan. His research activities mainly focus on the physics of organic semiconductors and their applications in organic electronics and photonics. He published 106 articles in peer-reviewed international journals, filed 9 patents and has an h-index of 33.
